

# Board Re-inforcement.

Smart Presentation

**1000 Micron Board**

Is mostly used in the smaller capacity A5 Binders. Lightweight for mailing and flexible in handling.

**2000 Micron Board**

The most commonly used board for A4 and A5 Binders combining maximum strength and body with optimum value.

**3000 Micron Board**

This board is recommended for all 50mm and above capacity binders. The added strength supports the ring mechanism with the weight of paper it carries.
