

A4 Ring Centres 'D' Rings & Round Rings

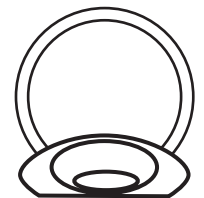

The capacity of a binder is the amount of paper that can be stored on the D-Ring mechanism. The spine size is always larger than the capacity because it has to cover the height of the D mechanism.

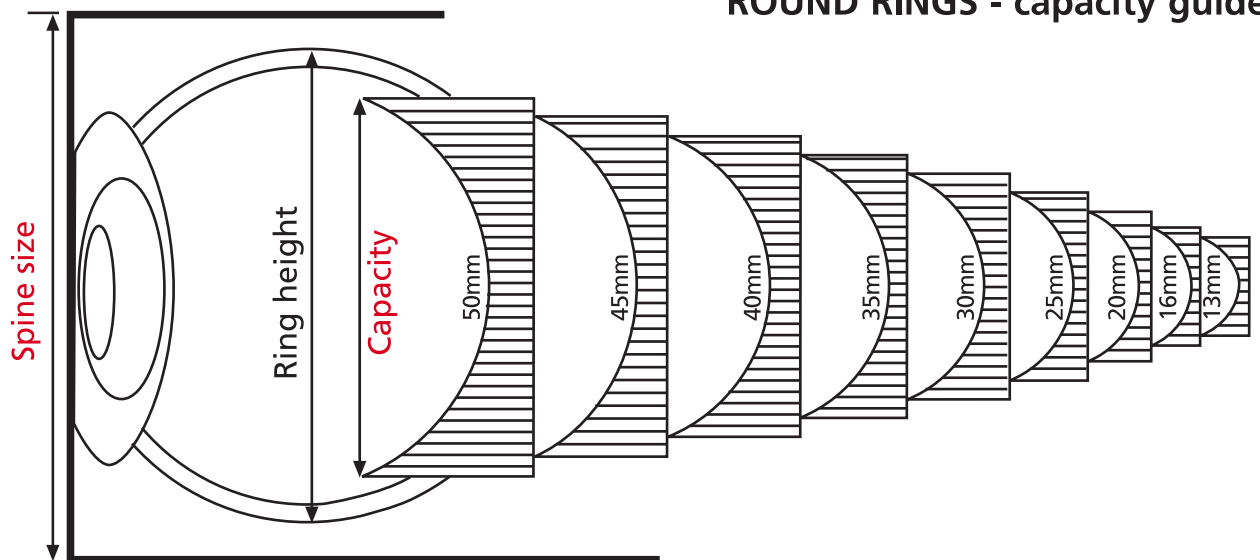

D-RINGS - capacity guide

The capacity of a binder is the amount of paper that can be stored on the Round Ring mechanism. The spine size is always larger than the capacity because it has to cover the width of the Round Ring mechanism.

ROUND RINGS - capacity guide
