

Smart Presentation

2016 Environmental Policy

Duraweld believes that protecting our ecosystem and environmentally responsible business practices are essential to sustain the future of the company and the quality of life of future generations.

| | |
|--------------------------------------|---|
| Resource Efficiency | <ul style="list-style-type: none"> • When purchasing equipment, products & services consider the environmental impact • Utilise “just in time” procurement • Ensure we recycle as much waste as possible, focus on reducing landfill as a percentage of sales |
| Waste Hierarchy | <ul style="list-style-type: none"> • Improve compliance with waste hierarchy by prevention and minimisation of waste in design and production of products • Utilise “lean manufacturing” principles and education to make quick wins |
| Energy & Water Efficiency | <ul style="list-style-type: none"> • Aim to reduce as total percentage used compared to what we make • Investigate new techniques and technologies |
| Sustainable Travel Management | <ul style="list-style-type: none"> • When purchasing new vehicles look at those with reduced CO2 emissions • Use technology to communicate where possible to reduce travel • Encourage car sharing and cycling to work & the use of public transport to meetings |
| CO2 Footprint | <ul style="list-style-type: none"> • Continually look to reduce our CO2 footprint |
| Stakeholder Awareness | <ul style="list-style-type: none"> • Encourage employees to reduce their carbon footprint and undertake CSR activities • Ensure that relevant personnel are trained and aware of applicable environmental issues • Suppliers: annually review and assess their environmental credentials to ensure we use similar minded suppliers and sub-contractors • Customers: provide seriously green solutions |
| Pollution Prevention | <ul style="list-style-type: none"> • Commitment to Pollution Prevention and Compliance with National and International Environmental Legal and Other Requirements • Ensure that our environmental aspects and impacts have been identified within the scope of our Environmental Management System |
| Environmental Performance | <ul style="list-style-type: none"> • Continue to record and collate data: annually review to identify areas for improvement • Ensure open, honest and effective communication to our stakeholders about our environmental performance |
